

## EMPLOYMENT BY INDUSTRY SECTOR SCOTT COUNTY

Although the "Agriculture" industry sector is not a part of the Unemployment Insurance Program, agriculture is an important contributor to jobs and the economic development in Scott County.

- There are over 104,741 acres of farmland.
- Those acres make up over 267 farms.
- 83% are crops.
- 17% are livestock, poultry, and products.
- 27% hire farm labor.
- The market value of the products sold totals \$101,207.

The value of the farms themselves coupled with additional agriculture-related businesses makes agriculture a valuable part of the employment and economic development statistics for Scott County.
